Subject: Resolution CWA 401

Elizabeth,

Please find attached ADEQ's April 28, 2016 regarding the CWA 401 certification associated with the proposed geotech project for Resolution Mine.

Also attached is a copy of the Army Corps of Engineer's jurisdictional determination for the area.

Based on information available to ADEQ, a 401 certification is not needed for the proposed activities so Resolution Copper Mine, LLC. Withdrew their 401 application, as indicated in the attached letter.

Christopher M. Henninger, Supervisor
Arizona Department of Environmental Quality
Stormwater and General Permit

Subject: RE: CWA 401 Certification Application

Hi Rosi

I am sorry I forgot to respond to your email. A 401 is required for a federal license or permit. Are there activities that require a federal license or permit other than 404?

I am available to discuss. I will be working all day tomorrow.

Sincerely,

Elizabeth

Subject: CWA 401 Certification Application

Elizabeth,

We have received a 401 application from Resolution Copper for baseline hydrologic and geotechnical data gathering activities on Tonto National Forest. The USACE has done a jurisdictional determination that the areas affected are not Waters of the US. However, the NFS will not give Resolution their plan of operations without a CWA 401.

Would you like to discuss this and/or have access to any of the documents?

Please let me know.

Sincerely,

Rosi

Laurie (**Rosi**) Sherrill
ADEQ Water Quality Division
CWA401 Project Manager
